To the proprietors of horses.

As the winter season has now set in and the camp is improving I beg to advise horse-owners that I am ready to take charge of horses at so much per month for pasturage, at the same time making myself responsible for the value of any horses lost (not including such as may die a natural death), on the following conditions:

1st. Horses not exceeding $600 in value will pay 80$ per month.

2nd. Horses worth from 600 to 1,000$ will pay 100$ and horses worth over 1000$ shall be charged 10 per cent., on their value for monthly pasturage.

3rd. Horse-owners will have to send for their horses to the estancia, and when delivering them will get a receipt from the Mayordomo; but when there are more than 4 horses the undersigned will send to take them or return them to town at 60$ a head.

4th. Horse-owners may leave their animals as long as they like, but cannot take them away until first paying whatever is due for them.

5th. After 4 months of pasturage the owner will be required to pay the cost of same, and if this be not satisfied within a further term of 2 months the horses will be confiscated as property of the estancia and branded with the estancia-mark.

6th. Every horse-owner will receive a ticket bearing my signature, expressing the value of the horses left for pasture, the date and conditions.

7th. Every horse-owner shall deliver to me the 'boletos' of the horses or a copy of same, to prevent the horses being seized as stray animals.

8th. In case of a horse dying, a piece of his hide with the mark will be returned to the owner.

To the proprietors of horses.

As the winter season has now set in and the camp is improving I beg to advise horse-owners that I am ready to take charge of horses at so much per month for pasturage, at the same time making myself responsible for the value of any horses lost (not including such as may die a natural death), on the following conditions:

1st. Horses not exceeding $600 in value will pay 80$ per month.

2nd. Horses worth from 600 to 1,000$ will pay 100$ and horses worth over 1000$ shall be charged 10 per cent., on their value for monthly pasturage.

3rd. Horse-owners will have to send for their horses to the estancia, and when delivering them will get a receipt from the Mayordomo; but when there are more than 4 horses the undersigned will send to take them or return them to town at 60$ a head.

4th. Horse-owners may leave their animals as long as they like, but cannot take them away until first paying whatever is due for them.

5th. After 4 months of pasturage the owner will be required to pay the cost of same, and if this be not satisfied within a further term of 2 months the horses will be confiscated as property of the estancia and branded with the estancia-mark.

6th. Every horse-owner will receive a ticket bearing my signature, expressing the value of the horses left for pasture, the date and conditions.

7th. Every horse-owner shall deliver to me the 'boletos' of the horses or a copy of same, to prevent the horses being seized as stray animals.

8th. In case of a horse dying, a piece of his hide with the mark will be returned to the owner.

The Company insures on equitable terms, and at a fixed premium, every description of property. The Company is solely and exclusively responsible for losses OCCASIONED BY FIRE which may be suffered by insured parties.

The total premium is payable in advance, in cases where the Insurance is effected for a term of one year or less; and annually where the term exceeds one year. EMIGRATION TO SANTA FE

FREE LAND-GRANTS TO SETTLERS

4,000 ACRES TO EACH FAMILY.

Governor Oroño is a go-ahead man and determined to make his Province the peculiar field of immigration in the Argentine Republic. The Swiss Colonies of Santa Fé are already very prosperous, but unfortunately the lion's share of the profits falls to the speculators in Europe who sent out these industrious people, bound down by usurious contracts. This is plainly expressed in the preamble for the new project handed in by the Government to the (Santa Fé) Legislature, of which we now treat. This project, which has received the sanction of committee and will probably be at once passed into law, proposes to pay the passage of emigrant families from Buenos Ayres to Santa Fé, and give to each, at the nominal price of £40 sterling, a large estancia on the banks of the Paraná, the great artery of the trade and passenger-traffic of the Republic. It would be difficult to foresee the working of this system of land-grants for a few years to come, as it is manifest that at least 100 families must club together in order to avail themselves of settlements in the Gran Chaco, but we have no doubt such a gratuitous concession will before long attract the notice of adventurous people, and we may remark 'en passant' that the site is much more advantageous than that of the Welsh Colony in Patagonia, since fortunes might be realised in cutting firewood, if in no other way, with every facility to convey same to Buenos Ayres in a couple of days. Our readers will be able to draw further conclusions from a simple perusal of the project, as follows.—

Art. 1. The lands bordering on the river Paraná between the concessions of Mr. Charles Vernet and Sor. Navarro, extending back westward to the Saladillo-Grande, are hereby given in perpetuity for the use and benefit of immigrant families.

Art. 2. The Government will draw up a map of the territory, marking sites for towns, each of which shall have an area of 4 leagues square for streets, buildings and a general grazing-common.

Art. 3. Each township shall be divided into building-lots of 50 yards frontage by the same depth, and chacras of 20 cuadras each (80 acres): the building lots to be given gratis, as also the chacras at the rate of 4 cuadras for each person.

Art. 4. The rest of the territory shall be distributed as estancias of 5,000 yards frontage by the same depth (4,000 acres), or 25 million square yards, to be sold on a year's credit to natives or foreigners who settle thereon, but not more than two estancias can be sold to the same individual.

Art. 5. The price of these lands shall be set down on the map, according to their distance from the river, the nature of their pastures, water-supply, wood &c. as fixed by Government tariff, which shall never be under 300$ per square league nor over 400$.

Art. 6. All sales, grants or concessions will require the indispensable condition of settling on the ground, according to the existing law.

Art. 7. The proceeds of lands sold as in art. 4 shall be devoted to paying the passage of foreign emigrant families from Buenos Ayres to their intended place of settlement in the territory above-described.

Art. 8. The expenses of passage for said families shall be considered as a loan, for which the head of the family must be responsible, and it shall be a mortgage on the lands ceded or sold to the family.

Art. 9th. All moneys advanced in this manner to each family for cost of passage shall be refunded by the colonists, beginning the 2nd year after settling, in a fifth-part each year, without any charge for interest.

Art. 10th. The moneys refunded as above by the colonists shall form an 'Immigration Fund,' the annual interest of which shall be exclusively devoted to the education of the colonists' children, public works, and other purposes tending to encourage immigration.

Art. 11. The settlers shall be exempt from all Provincial tax or impost during five years after their establishment.

Art. 12th. Native families of this or any other Argentine Province who may wish to settle in the Colonies or in their neighborhood shall enjoy the same privileges as are hereby conceded to foreign settlers.

Art. 13. The Government will publish at expense of the State a pamphlet comprising the present law, with a description and map of the territory herein devoted to immigration purposes.

Art. 14th. The Government is obliged to report each year to the Legislature on the results of the present law, with a balance-sheet of receipts and expenditure.

EDITOR'S TABLE.

Yesterday morning the whole province was dressed in white. The frost that fell on Wednesday night was one of the heaviest known for years; passengers who arrived yesterday per train represent the camps on Thursday morning as if after a heavy fall of snow. We gather from the farmers that the sheep are falling off and getting very poor; the nights are long and the flocks have to be kept shut in the corrals until nearly midday, owing to the heavy frosts; the consequence is that the sheep have only about five hours pasturage each day, and the grass, though high, is soft and watery and affords very little nourishment. The cattle, however, seem to suffer most, and North, South and West we hear of nothing but dead cows lying about in the camps. In the Southern partidos the shepherds are all on foot; horses are not to be had even at the largest estancias, and we are assured by a Southern estanciero that the present season is one of the hardest ever experienced in the camp.

In the B. Oriental we hear of several new establishments: rents have gone up there prodigiously and are now even higher than in Buenos Ayres. Last week an English gentleman rented three suertes of land in the district of San José at the rate of three thousand patacons per annum. On this land he has put thirteen thousand sheep, which cost him on an average, say, ten rials M. Videan money. There are several other new establishments being formed, but somehow our friends dislike giving us the particulars, although it is really the most interesting of all news for 'Standard' readers.

We hear a capital story of Captain Lynch, the commander of the Henriette, a Chilian privateer. Lynch, who is a distant relative of Dn. Patricio Lynch of this city, was in Bordeaux, and hearing that the Spanish war vessels lay outside, went out in a small boat to the fleet, represented himself as an Englishman, his complexion, being British in the extreme: gave the Spanish commander an imaginary description of the Henriette, and stated that she would not be ready to leave for a week. He then returned to Bordeaux, got up steam, hoisted the Union-jack, and passed the Spaniards. When he arrived off Maldonado he had a letter of introduction to Creuz, the Spanish Minister, and actually dined with the Spanish Vice-Consul at Maldonado, took in supplies and provisions, and then started for Chile. This was about the most daring trick we ever heard of, and, as a matter of course, was crowned with success.

We expect hourly the Chacabuco with Minister Costa, or the steamer General Flores, with about 200 sick and wounded from Itapiru: by either of these vessels we look for another despatch from 'Sinbad,' whose letter published yesterday caused the most marked attention, as it gave an insight into a country altogether unknown to most people of Buenos Ayres.

The new Chilian steamer Panama is expected in Montevideo to-day. She will bring us probably three days' later advices than the English packet, due next Thursday. When can the commerce of Buenos Ayres support such steamers? Twenty-two days from Europe. Mr. Wheelwright, who is at present in town, is one of the largest shareholders in this Pacific line of steamers, and we doubt not could, if the merchants of Buenos Ayres would make a move in the matter, establish a direct line for us; we have no doubt it would pay.

Mr. Hopkins' canalisation scheme is now prominently before the public. On the 4th of July he having towed out the drag, inaugurated, 'pro forma,' the canalisation. Captain King, of the Marine Railway, is also here with all utensils, &c., ready to commence operations. Yesterday the plan of the Marine Railway was exhibited at the Provincial Government-house. Governor Alsina and Ministers inspected it, and we hear the scheme meets with high favor from the Provincial authorities.

Congress is occupied with the question about increasing the District Judges in this city. We believe that the house will pass the bill, as the business before the court is too much for one judge.

Sr. Cantilo has finished his translation of another standard American law-book—Curtis. We have not yet seen the translation, but believe it will be equal to Sr. Cantilo's high reputation as a translator.

The Justice of Peace of San Fernando finds great difficulty in getting the the neighbours to pay up the Contribucion Directa, and therefore publishes a sharp notice. The town has been ordered to be put in order, streets levelled, and $5000 given for the new church. If the Marine Railway be established there the place will go a-head famously.

General Flores, we hear, offered if President Mitre would give him 3,000 or 4,000 men to storm Curupaiti and root out the enemy, but the commander-in-chief declined.

The University of Buenos Ayres has received two immense slates from Europe, for the class rooms. We hear that it is proposed to get a large clock from Mr. Jaeggli to put up on the front of the building.

The little town of Las Conchas is now so rapidly improving and the population augmented, that it is hinted the Government is about to order the erection of public schools: this would be a move in the right direction.

The busiest man in Rio Janeyro is our friend Bustamante, who keeps a sharp look-out for the latest to send to the River Plate; he prints his supplements in Rio and when the vessel arrives at Montevideo they are delivered to subscribers and sold in the streets; he forgot however to send us the American news last steamer. We hear she entered Rio on the 22nd, and the Halley left on the 25th June.

The Dolorcitas, we learn, is specially chartered to take up a select party to inaugurate the Gualeguay Railway: we have been honoured with an invitation and intend going, so our readers may expect a full and true account of the function. Dr. Rawson, we hear, owing to state business, is unable to attend.

On Wednesday, being the 4th July, the 11 Setiembre battery saluted the Stars and Stripes: the Kansas, in the offing, also fired a grand salute. At Mr. Zimmermann's, Mr. Livingston's, and other American gentlemen's, there were dinner parties and balls. At our office champagne corks were flying and several camp subscribers who came in to pay subscriptions quaffed the flowing bumper. We forgot to mention that beside the champagne present we also received a box of the purest havannahs.

We are glad to inform our readers that the Montevidean telegraph is pushing ahead, and is now out as far as San José. Soon we anticipate the pleasure of sending a message to our agent Sprunck, saying—How many new subscribers to-day? and in five minutes receive the gratifying reply—"ten daily and five weekly, names and addresses by post!" When this comes to pass we may truly say the River Plate is going ahead.

The Provincial Government, inspired by a just feeling of generosity, has given $5000 to the children of Major Basibilbaso, and to the widow of B. Marquez $4000 m|c. Money well spent! These poor fellows fell fighting for their country's cause.

The elections for the 3rd section of the camp came off on Sunday, and Dr. M. Quintana has been named Deputy. We are glad to see this talented lawyer in the House: he is one of the most rising men in this city, and we feel certain will side with the 'Standard' in defending the poor sheep-farmers against scandalous abuses and excessive taxation.

The people in Belgrano have now the luxury of an English Justice of the Peace: we have no doubt the town will now go a-head a-pace. Mr. Gowland is a practical man and can distinguish between a poor Jack-tar brought up on a foolish charge of galloping through the streets, and some pilfering fellows who hang about the town and are never known to work.

To-day a meeting of the Bolsa subscribers will be held for the purpose of electing new members.

La Fuente is in Corrientes sick—we suppose he has got the 'chucho.' Octaviano, the Brazilian Minister, landed at Itapirú: we hear that he insists on President Mitre at once making a levy of horses, mules, etc., and for this purpose Murature, in the Guardia Nacional, is expected in port hourly.

By a private letter from London only received yesterday, we regret to say that we learn Captain Harrison's Steamboat Company seems in 'nubibus.' The Captain delayed too long; he should have started his Company a year ago, as the river is full of steamers: the only public that suffers is that of Bahia Blanca and Patagones.

We regret to notice in yesterday's 'America' a most unjustifiable attack on Mr. Tomkinson, one of the leading English merchants of Montevideo. It is greatly to be regretted that some of our colleagues should condescend to such gross personalities. Mr. Tomkinson stands too high in the estimation of the public of Montevideo and Buenos Ayres to be affected by such uncalled for remarks as those in yesterday's 'America.'

We have received a box of the very best Havannahs from the new firm of Clausen and Rathje in Calle S. Martin; they deserve a puff for such a regal present. We inspected the establishment yesterday and pronounce Olivera completely outdone. Clausen and Rathje's cigars are mellifluous and reasonable, and we strongly recommend them to our readers.

THE PERGAMINO CAMPS.

I have seen some remarks in your valuable paper touching the "pasto fuerte" camps of Chacabuco. Permit me to tell you what happened to me in the "pasto fuerte" camps of Pergamino, that you may judge whether or not a man settling on the frontier can afford to pay $150,000 a league for camp, the price fixed in the new project of land law.

I bought, two years ago, the enfiteusis right to a suerte of estancia, and settled on it with 2500 sheep: 300 died of the hard grass. The shearing of first year gave me—

245 arrobes wool, sold at 11 de Setiembre, at $65		$15,925
Less freight, at $8 per arrobe	$1960	
3 per cent. commission.	477	2,437
Nett		$13,488

My expenses, were two peons, each $250 per month, whose support and wages cost $12,000, leaving me $1,488 for a year's labour and interest on $250,000 invested. I waited 18 months to see if my sheep would get acclimatized to the soil, but finding that they were going on worse instead of better, I took them away to soft pastures again, where they are now doing famously. In order not to lose my enfiteusis right I stocked the land with 1200 horned cattle, which, of course, give little or nothing: in 18 months I have sold 80 novillos at $160.

Why, then, should we pay the above price for such lands, when, at 8 leagues hence, in the Province of Santa Fé, we can buy private lands at 4000 hard dollars per league, which have the advantage of having been many years settled on and used for tillage?

I consider our "pasto fuerte" lands well sold at $100,000 per league, a price which would suit many, and I myself would buy, with the hope of having, after 5 or 6 years of hard labor and much expense, a good estancia and comfortable home.

We constantly hear of Indians, but as yet have not seen any: perhaps they think we have little worth the trouble of carrying off.

I could say much more about these blessed camps, but fear to trespass too much on your space.

AN ARGENTINE.

ED. NOTE.—We shall be most happy to make room for 'Argentine's' communications whenever he chooses to favor us.

MONTEVIDEO.

July 4th, 1866.

This morning was ushered in with salutes for the anniversary of American Independence, and the citizens of the Great Republic are celebrating the day. Otherwise, there is a stagnation of news and politics, people giving up the hope either of General Flores's return or of a speedy end to the war. The 'Siglo' states that a misunderstanding is believed to have occurred between General Mitre and Marshall Osorio, the latter wishing to hazard a great battle and the former refusing. Some Brazilian forces arrived per Evelyn have left for Corrientes.

The Spanish vessels Wad-ras and Consuelo have returned from Maldonado without any tidings of the Henriette. The Dramatic Company are going to give a Benefit in aid of the two Spanish ship-captains whose vessels were burnt off Maldonado by the Huascar. D. Pedro Zumaran, acting-consul for Spain, is getting up a very meritorious subscription for his unfortunate countrymen escaping from Perú and Chile.

Since the ghost-apparition at the Cemetery our city police have not been called on for super-natural service till last night, when they proceeded to take possession of a haunted house near the Pittaluga quinta: they were assailed with a shower of stones, while mounting guard on the azotea, and the sergeant was badly wounded, without being able to divine the mystery. The 'Tribuna' publishes a letter from Mr. John Lelong to the 'Economiste Français' defending Brazil and Buenos Ayres from the attacks of some leading French journals. D. Amadeo Errecart sends from New York a canto to his 'innamorata' for publication. Messrs. Bates & Co., contradict the rumor of their 'special artist' having been struck with a fragment of a shell at Estero Bellaco.

ARRIVALS.

Gerhardina, from Boston, with pine.
Dairy, from Liverpool, with general cargo.

ORIENTAL.

IMMIGRATION RETURNS,

For Half-Year Ending June 30, 1866.

The returns for the half-year just expired show an increase of 25 per cent on those of '64 and '65 which were about equal, and consequently the influx of Europeans in the present year is greater than ever before known in these countries. As usual the Italians form almost one-half of the entire number: we are glad to see Liverpool ocupy the third place, and the proportion of English arrivals increasing, thanks to the several lines of steamers.

The number of passenger-vessels arrived in the half-year was 131, with 7,208 passengers, in the following order:—

	vessels	passengers
Italians	36	2125
French	37	1172
English	25	444
Spaniards	14	302
Belgian and German	13	298
North American	2	13
Montevideo (transhipped)		1765

Of the total number, only 703 availed themselves of the Immigrants Asylum, and those were at once employed. Some of the English immigrants were men of capital.

The above returns are highly satisfactory and show that the war has not so depressing an effect as was anticipated.

LATEST FROM LA PAZ.

(From our Correspondent).

La Paz, Entre Rios,
June 23, 1866.

As usual, heedless of war and its rumors, a large foreign population are building, planting, and actively employing themselves in the advancement of this town and its neighbourhood. New houses of importance are springing up daily, and within the last month we have five stores with large capital established, a diligence started to the town of Villaguay, and the new church going up with rapid strides. Each steamer brings and carries away cargo, and a large trade is carried on between this town and the Paraná. Apropos of the Paraná, there is no doubt of its being the cheapest place in the Argentine Republic for a family to reside at: the reason is simply as follows—when the Paraná was the capital, houses were built by the dozen and let as soon as built; building ground was dearer than in Buenos Ayres. Tradesmen flocked in from all quarters quinteros formed quintas; lecheros tambos, and for all there was a market, even at fabulous prices: but the change came, and the Legislature left, and Urquiza returned to San José, and with them, and with him, the throng dependent, and silence reigned over the noisy city of the Paraná. As is always the case in such cases many speculated without capital, and others that had capital invested in land, buildings, chacras, and quintas, and traders in their necessary utensils, find their capital shut up in those investments, and cannot abandon them. Hence in no part of the world is bread cheaper than in the Paraná: not alone being in the vicinity of several colonies and a corn-growing country, but the number of bakers is incalculable, each with an atahona or mill driven by mules, and a large bakehouse attached to his dwelling, which in all cases are the baker's own property. Meat, vegetables, fish, and milk are abundant. House-rent I will not say nominal, but many, very many, are glad to get a respectable occupant to obviate paying a party to keep the house open. I mention these particulars as there may be parties in Buenos Ayres waiting the accomplishment of some plan or project, who encroach upon their capital, or live upon some small annuity, whose chief part is swallowed in house-rent, joined to all other matters entirely beyond the reach of any in middling circumstances. Try the Paraná and great will be the saving.

But to return to La Paz: the want of rain is much felt, and there is a great scarcity of horses, joined to extreme leanness in those that remain. Yet the Brazilians have purchased all through the Department, and the Correntino Government is purchasing for the allies, giving receipts without investigating mark or owner; this is a certain road to horse-stealing.

Of Berron we hear or know nothing. All is so far quiet and all are working to make a livelihood.

The 'garrapa' still continues and with much prejudice to very many; there is great leanness amongst the horned cattle, and sheep continue to die, but as in the next month the camps begin to improve this is only temporary. What we now most fear is Correntino horse-stealers. There have been some 'carneadas' which from the many devices used to conceal them and the thickness of the wood are not easily discovered.

There is no speculation that pays better than purchasing bulls in Corrientes; they should be animals of from 2½ to 3½ years, the older the better. Those purchased in August that are done growing, put into 'pastoreo' &c. will generally be fit for the saladero in February, March or April following, and if judiciously managed will leave a large profit. It is a mistake buying small young animals, because they are a 'real' cheaper; instead of fattening for the market they are growing and do not give a return till the second year. From the South of the river Corrientes to the frontier of Entre-Rios cattle abound and are cheap, land abounds and is also cheap to buy or let, and the facility for corrals is unequalled, from the abundance of timber. Many young men with capital would find this an agreeable, profitable and more manly mode of making

money than the monotonous life of a lowly hut and half a flock of sheep. Mr. Ordaño, in La Paz, steamboat agent, is always aware of the best localities, and the Steamboat Hotel is cheap and commodious. It is scarcely to be credited the number of crafts calling at this port for provisions, particularly beef, it being considered better here than at any other lower down the river Parana. La Paz is 35 leagues north of the town of Paraná: In one of my next I will send you local statistics of our town, which in a commercial point of view, bids fast to outdo the town of Paraná and any other port on the Entre-Rian side of the Paraná. The energetic and much esteemed Juez de Paz is above our praise, and the head of the Custom-house and Post-office, Don Ramon Vasques is instrumental in everything that tends to the advancement and welfare of this opulent river port,

Sincerely yours,

SERANDI.

THE LATE D. ESTEBAN CHASSAING.

We mentioned, yesterday, the sad occurrence of this gentleman's sudden demise, while occupied in the editorial duties of his journal, 'El Pueblo,' and there are some circumstances connected with the event worthy of peculiar notice.

It is, we believe, the first instance in these countries of a journalist dying at his desk, and by a strange coincidence the 'Pueblo,' almost the newest member of our city press, has, in the short term of two years, twice appeared in mourning for the death of its editor, a misfortune that has never yet occurred to any other paper in town, although the rest are so many years older.

The 'Pueblo' was established in October, 1863, by D. Juan Chassaing, who was cut off the following year, at the early age of 24, by an attack of rapid consumption. His brother Esteban then gave up his business in Paraguay and came to take charge of the paper: he had no symptoms of his brother's disease, but was destined to survive him only a short time, and on last Wednesday fell a victim to a stroke of apoplexy, while compiling the news or reading the proofs of the evening paper that was to announce his decease. The first form, or outside pages, of Wednesday's 'Pueblo' appeared without mourning, shewing they had actually been struck off before the dread messenger of eternity entered. Poor Chassaing! he little thought that the leading article of that evening's paper would have his name for a heading, with a black border to it.

Both the Chassaings died young and unmarried, almost before finishing their first probationary year of editorial labors. They were amiable and well-educated youths, of foreign descent, their father having been a French watchmaker: Juan had studied law, and Esteban was for some time manager of a commercial house at Asuncion. However ill-omened for the 'Pueblo' this second bereavement, we believe it will be continued by a partner of the gentleman just deceased, as it enjoys a good circulation and the peculiarity of political views quite opposed to the other native papers.

The 'Tribuna,' 'Nacion Argentina,' and 'Standard' have, each, on their editorial staff two or three brothers (a coincidence peculiar to Buenos Ayres), and we sincerely hope that the strange destiny which has pursued the brothers Chassaing may not extend itself to others of our little community, but that the same exemption from mortality which characterised the city journalists before the establishment of 'El Pueblo' may long continue as a peculiar feature of our calling.

We cannot conclude these remarks without offering our most heartfelt condolence with the friends of the deceased, and again bearing testimony to the talents and amiable qualities of the unfortunate brothers Chassaing.

THE BOMBARDMENT OF CALLAO.

ADMIRAL MENDEZ NUÑEZ'S ACCOUNT.

Rio Janeiro, June 25, 1866.

My Dear Sir,

On 2nd May the Spanish fleet bombarded Callao and assailed its formidable batteries and ironclad turrets. Ninety guns, of calibre ranging from 32 to 500-pounders, replied to the first shots from our vessels. At the close of the bombardment, at sunset, after 5 hours' firing, only 3 Peruvian guns replied to us. Before we had been firing 45 minutes our shells destroyed their ironclad turrets, in one of which perished the Minister Galvez, and Borda, chief military engineer. At sundown, having destroyed most of the city and silenced 87 of the enemy's guns, we ceased firing, our crews manning the yards, with 3 cheers for Queen Isabella.

The enemy suffered heavily, admitting a loss of 350 men, including Galvez, Borda, Colonels Garcia, Bagero, and others. Our loss was 38 men killed, and 102 officers and men wounded. Topete and I are slightly wounded. The vessels were more or less injured, but all were repaired before I left Callao.

The Berenguela narrowly escaped sinking, from a 300 lb. shot which went clean through her, making a hole fourteen feet long by four feet wide.

Excuse haste.

Your affectionate friend,

CASTO MENDEZ NUÑEZ.

BANKING CRISIS.

Buenos Ayres.

To the Editors of the 'Standard,'

Gentlemen,

An article appeared in your popular paper of 3rd inst., signed by 'Fair Play,' in reply to mine of 28th ult., which, it is evident, has deeply wounded the 'amor propio' of a few who took a prominent part in the Bolsa meeting, which has caused no small amusement to the sensible and pacific community of this city, and it is rumoured will be repeated, but this time with the object of sending a commission of gentlemen to England for the purpose of getting redress from Mr. Gladstone for having suspended the Bank Charter Act.

There can be no doubt whatever of the deep interest 'Fair Play' takes in 'Limited Liabilities;' and he is unwise enough to leave the door open to discussion of a most serious nature, by drawing *odious comparisons* between old and well-established private banks and joint-stock companies; I think the less he says about this the better, for a reference to the newspapers lately received from Europe, extracts from which, if published, would be anything but beneficial to the cause which he tries to advocate.

As an admirer of the Baron Mauá, who, it cannot be denied, is one of the first financiers in South America, and has proved himself to be a true benefactor to Brazil and the River Plate, I have taken up the cause of defending his long accredited banking establishments against the insidious and vindictive intrigues of a small circle of speculators and rivals.

'Fair Play' is incorrect in stating that an unfair advantage was taken in sending by the supplementary mail the article written by me; such was not the case, but as a friend of the Baron Mauá I could not allow the report of the meeting to be sent to Europe by the same mail, without refutation or remark.

In England there is a well defined system of chivalry observed amongst honorable Bankers and Merchants, of mutual self-support, but unfortunately the same cannot be said to exist here.

Respecting the secrets of the Board Room of the Provincial Bonk I must confess I am ignorant, not being a Director, which perhaps 'Fair Play' is; all I can say however is, I have been informed on the most creditable authority that Mauá & Co. got from that Establishment 400,000 patacons against a Deposit of National Stock, while the rival Bank, that asked for 500,000 was granted only $200,000 and this on the discount of Bills from its portfolio and *with its endorsement*.

And now I shall put a few questions to the sophistical 'Fair Play,' which perhaps he may be induced to answer when he has a moment of leisure.

Has any manager or agent of the Bank of Mauá ever impeached, *publicly or privately*, the credit or honor of rival establishments?

Who has been the largest, and, it may be said, the only importer of gold into the River Plate? [For his information I may here tell him that according to the statement published in the 'Standard' a few days ago, Mauá & Co. have introduced into the River Plate during the last three years, £12,000,000].

Who has supplied the Brazilian army and navy with the enormous sums of money required for the present war with Paraguay?

What bank has been more liberal or generous in times of crisis in these countries?

Can any one complain of incivility on the part of any of the mauagers of the Mauá Bank?

What bank has always been the first to take an interest in and promote all public enterprizes in the Brazil and the River Plate?

To whom does the Banda Oriental owe its daily increasing prosperity and the credit of its local and foreign debt?

Whose emission is most accredited in the town and country districts of the Banda Oriental and Rio Grande than Maua's?

In conclusion, I may say as to the relative merits of private and joint-stock banks, that they are not to be judged by advertisements in public papers, but by the reputation which they enjoy in commercial circles, and I may remind 'Fair Play' that the first banking establishments in the world are not joint-stock Companies, but private banks such as Baring Bros., Rothschild, Peabody, and various others, the names of which 'Fair Play' may learn by referring to the Banking Almanac of 1866.

I trust, gentlemen, that you will have no hesitation in publishing this letter.

Yours very truly,

MERCATOR.

Specie went up this morning and ruled during the day rather firm, but in the afternoon prices gave way and the market closed weak. The 'Tribuna' article, attacking the Maua Bank in Montevideo was much commented on and deemed ill-timed and indiscreet; in fact, discussions in the papers about the banks meet with little favor on the Bolsa; and all agree that the less letters and articles attacking the credit of any of the banks the better. There was no news from headquarters to-day; the Minister of Education was expected, but did not arrive. In Exchange the rate is the same; several bills were passed today. The banks are doing very little. National Bonds are firm and looked for at 38¾.

Respecting the Gas Company, there is much inquiry as to the much talked of semi-annual dividend. Shareholders request us to call Sr. Estrada's attention to the matter, as if the dividend is to be declared it will be due in August, and previous to which a general meeting ought to be convened. We know that it is the ambition of the President, Sr. Estrada, to introduce this reform as soon as practicable. The shares are held up, and cannot be got under 25 per cent. premium.

SAVINGS BANK.

BANK MAUA AND CO.

No. 103 Calle de Cangallo,

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1863.

P.p. Mauá and Co.

WILLIAM LESLIE

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p %) per annum, which is liquidated ever six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

Perfect Security from Burglars or Fire,

Can only be obtained by having George Price's treble and quadruple Patent Prize Medal Safes, fitted with his Patent Case hardened, drill and screw proof doors and his "ne plus ultra" Gunpowder Proof Locks which have successfully defied the efforts of the most expert London and Manchester "Cracksmen."

"Case hardening" as applied to these Safes renders the metal many times harder than the hardest steel ever used, thereby destroying the cutting edge and rendering utterly unoperative every description of burglars tools and implements however powerful or ingeniously constructed.

The above Safes can be seen and price lists obtained by applying to

JAMES SEMPLE & CO.,
Calle Chacabuco Nos. 81 & 83.

G. Price's Gunpowder proof unpickable Bank door locks, as also patent locks for all purposes.

Capital subscribed $1,711,198 75c. sil.
Number of Policies, 1413.
Bonds purchased, 270,100 hard dollars.

The Bienhechora offers three various modes of Insurance to its subscribers: 1st, with the loss of capital by the death of the Insured party; 2nd, without loss of capital in said event; 3rd, with mere compound interest.

In the first form the Insured party has a right to:

1. To compound interest on the bonds purchased by the capitals received by the Company.
2. To a propertionate share of the capitals and interest of those who die in their respective sections.
3. To a proportionate share of the Capitals and Interests of forfeited subscriptions.
4. To a proportion of gains resulting from increased value of the National Bonds acquired by the inversion of funds.

In the second form the Insured claims

1. Compound Interest on the National Bonds purchased by the Association,
2. A proportionate share of the Interest due on the Capitals of those who die in the respective sections, which capitals are returned to the subscribers
3. A proportion of the interest due on forfeited shares.
4. A proportionate share of the profits arising from the increased value of the National Bonds, acquired by inversion of funds.

Finally, in the third form, gives a right to the corresponding interest produced by the Bonds purchased with their subscriptions, and the successive reinvestment of such interest, effected quarterly, when the coupons are paid up by the public treasury.

So marvellous are the benefits arising from the employment of Capitals in Public Funds, assisted by the combinations effected by "La Bienhechora," based upon the Mortality Tables of Deparcieux, and the interest produced by the 6 per cent. Consolidated Bonds, that taking for a model, the result given by other companies established precisely in the same form and basis, but with an accumulative interest much inferior to that gained by the "Bienhechora," that it is enabled to present as positive the following tables showing the gradual progression of capitals for a subscription of:

REMATES.

POR MARIANO BILLINGHURST.

En su casa calle Potosi núm. 70.

De 60 carneros padres de la raza y sangre pura Negretti nacidos y criados en la cabaña que tienen establecida los Sres. Narciso Martinez de Hoz é hijo en la estancia del Arazá.

El miercoles 1° de Agosto, á las 11 en punto de la mañana, se han de rematar sin falta alguna á la mas alta postura y dinero de contado, 60 animalos de la Raza Negretti, iguales en todo á los mejores que pueden introducirse de Europa y con la conocida ventaja sobre aquellos, de ser aclimatados en el pais, de robusta salud, tipo marcado y y cuidados con el mayor esmero que se tiene en Alemania para la propagacion de esta raza y conservacion de la pureza de sangre.

Antes de ahora hemos publicado una serie de articulos demostrando las ventajas de estos animales nacidos en el pais sobre los que se importan del estrangero, y recomendando la asidua cantracion y los grandes costos que varios otros hacendados han hecho para obtener la produccion de padres Negrettis bajo iguales é identicas condiciones que en Alemania.

El establecimiento de Arazá tiene ya su reputacion hecha y los animales que estarán visibles aqui en casa del Rematador desde el 25 Julio, serán la prueba mas evidente de la veracidad de esta asercion. 146—xp j24.
